

Children's Rights At Cerebral Palsy ALLIANCE

Based on the National Principles for Child Safe Organisations

What you need to know

Our aim is that every child or young person who comes in contact with Cerebral Palsy Alliance (CPA) is treated fairly and has a good life.

Rights to keep you safe

1. You have the right to:

- feel SAFE
- be HEARD

2. It is important for you to **know** and **understand** your rights. If you are unsure:

- ask an adult you feel you can trust
- ask them to explain your rights and how to tell someone if you are worried, scared or feel unsafe.

3. You have the right to a **safe environment** where:

- you can tell someone if something is worrying you
- you do not feel scared
- you can trust the people around you
- you are not physically hurt
- you say what you think, and you can trust that we will listen
- you can trust that we will keep your concerns private and only tell people who can help you
- you feel that your concern will be dealt with.

4. You should be treated the same as every other child, no matter:

- who you are
- where you live
- what your parents do
- what language you speak
- what your religion is
- whether you are a boy or girl
- what your culture is
- whether you have a disability
- whether you are rich or poor.
