

Research Study: 'Your Opinion: Neural Implants for Children with Cerebral Palsy'

- We are conducting a research study about the Australian cerebral palsy community's opinions on neural implants for children with cerebral palsy.
- We are seeking people with cerebral palsy and their parents/carers.
- Taking part in this study will involve completing an online survey, which includes seven short videos and takes approximately 25 minutes in total.
- To learn more about this study and to complete the survey, please click the following link: <u>https://redcap.sydney.edu.au/surveys/?s=YP7H7JLH734HA8A8</u>
- Please contact Samarth Shrivastava at <u>sshr5471@uni.sydney.edu.au</u> if you have any questions about this study.
- This study has been approved by the Human Research Ethics Committee (HREC) of The University of Sydney (Protocol Number 2023/508).
